- Grade : Very Good.

## Personal Projects

### CleanCopy (browser extension)

Adds a copy button to facebook posts to help you copy the clean url easily and without disturbing trailing parameters.

### MemeMic (C# .Net WPF)

An overlay for playing audio and video memes through your mic so that it can be heard by others in meetings and games.

### MessengerBot (Java - Selenium)

Lets you see messages and send records while playing games without distraction.

### AmazonDealHunter (python - Selenium)

Scraps Amazon.eg, sends the best deals to a telegram group and automatically buys them for me.

### AnimeNinja (Java - Selenium)

Downloads all anime episodes with one click.

### EpisodeRenamer (Java)

Renames series episodes in numerical order instead of large unnecessary names.

### FlashChat (Flutter)

A chat app connected to Google Firebase.

## Courses

- Flutter Development - Udemy certificate
- Competitive Programming Course (Level 0) at ACM-ICPC Mansoura Chapter.
